SEO Lead · Alaris Media · 2022–present

- Own organic search for four B2B publisher clients. Largest went from 120,000 to 340,000 monthly sessions over two years, mostly by fixing a crawl-budget problem nobody had looked at and then rebuilding the taxonomy.
- Built the reporting layer the whole agency now uses. Every client report ends with three things we are changing next month and why, which cut our monthly call time roughly in half.
- Deep in Ahrefs, Screaming Frog, GA4, Looker Studio and Search Console.
- Brief and edit a pool of six freelance writers.

Content Executive · Vertex Digital · 2019–2022

- Keyword research, briefs, on-page. Some link outreach.
- Covered the newsletter for a few months when the owner left, but it was a digest, not a lifecycle programme, and I would not claim it as email work.

Note

I have not owned social media at any point. Happy to learn it but would rather say so upfront than pretend otherwise.
