Agency PR for seven years, five of them on B2B technology accounts. I am the person who actually calls the journalist.

EXPERIENCE

Account Manager — Nordlys Communications

Mar 2022 – present

- Run media relations for four accounts. Placed 71 pieces last year across TechCrunch, Di Digital, Computer Sweden and Breakit; 19 were tier-one targets named in the client's own plan.
- Built the annual communications calendar for a logistics software client: two product moments, a research report, a funding announcement and an industry awards run, mapped against their sales quarters.
- Commissioned and launched a 900-respondent industry survey that produced six months of story angles. It generated 31 pieces and became the client's most-linked page.
- Took a client through a founder-departure announcement. Wrote the internal note, the customer email and the press line so the three did not contradict each other, and briefed the interim CEO on the two questions everyone would ask.

Senior Account Executive — Nordlys Communications

Aug 2019 – Feb 2022

- Wrote press releases, bylines and case studies across the tech portfolio, roughly 60 pieces of copy a year.
- Set up the agency's coverage tracking in Cision and produced the monthly client reports, including a share-of-voice view the accounts team now uses in pitches.

TOOLS

Cision, Retriever, Google Analytics, Later. Fluent Swedish and English.

EDUCATION

BA Media and Communication, Lund University, 2019
