Senior Content & Social Manager · Terrace Goods · 2022–present

- Own social across Instagram, YouTube and a Reddit community. Instagram went from 12,000 to 68,000 in two years. The Reddit presence now sends more qualified traffic than paid does.
- Grew a stagnant blog from 30,000 to 74,000 monthly sessions by cutting posting frequency in half and putting the time into six pillar pages.
- Write all long-form and social copy. No agency, no freelancers.
- Monthly channel review that ends in decisions, not charts. Killed two channels off the back of it last year.

Content Executive · Halyard Media · 2019–2022

- Editorial calendar, community management, some paid social.
- Comfortable in GA4, Meta Business Suite, Buffer and Search Console.

A note on email marketing

I have never owned an email programme. I have written for other people's campaigns but not built the flows or carried the revenue number.
